UPC: 1

Double lip.

Digital display and pressure gauge for pressure control = safety and reliability

Built-in circular spirit level for easier positioning and improved accuracy. Automatic on/off function: the pump stops when the required pressure is reached. The display then shows 200 kg and the pressure gauge -0,7 bar.

Automatic pressure regulation: below 160 kg or -0,4 bar, the pump switches on and draws vacuum again until 200 kg or -0,7 bar is reached. Double-click ON/OFF button to release pressure and tab for easy removal.

For smooth and rough surfaces.
Carrying case and protective cover included.

CE certified.

Specifications:

Diameter: 205 mm. Handle length: 110 mm. Net weight: 1,2 kg. Max. capacity: 160 kg.

Built-in battery : 3,7 V - 4000 mAh Li-ion.

Rated power : 14,8 Wh. Autonomy : 16 h. Charging cable : USB C. Charging time : around 3 h.
