PREMIUM ELECTRIC SUCTION CUP

Ref. : 269755
Gencod 3476062697552
UPC: -

Ideal for structured surfaces.

Equipped with a soft foam sealing ring that adapts to the surface for optimal grip.

Digital display for pressure control = safety and reliability.

Equipped with an ON/OFF button and a decompression button.

Automatic on/off function : the pump stops when the required pressure is reached. The display then shows 200 kg.

Automatic pressure regulation : below 160 kg, the pump switches on and draws vacuum again until 200 kg is reached.

Decompression is performed by double-clicking the dedicated button.

Ergonomic handle.

For smooth, rough, and structured surfaces.

CE certified.

Accessories included :

- Charging cable
- 2 replacement dustproof cottons
- Carrying case

Specifications :
